

ENERGY II IQC

Energy Sector Technical Assistance

International Resources Group (IRG) is an international professional services firm that helps governments, the private sector, communities, and households manage critical resources to build a cleaner, safer, and more prosperous world. Since its inception in 1978, IRG has completed over 700 contracts in more than 135 countries, delivering high-quality, cost-effective services that promote positive economic growth, institutional and social change, and intelligent use of resources—human, physical, environmental, and financial.

We have managed contracts with US Federal agencies such as the Environmental Protection Agency, Department of Energy, Federal Aviation Administration, Agency for International Development, and Department of Defense; international organizations such as the United Nations, Asian Development Bank, and World Bank; foreign governments and agencies; and numerous private sector firms.

the

ENERGY II IQC TEAM

The IRG Energy II IQC Team's capabilities mirror USAID's needs with requisite expertise through partners whose close working relationships have developed over the years. USAID can rely on the IRG Team for quick response, seamless task order management, and team synergies that generate results. Our carefully selected team members provide complementarity and technical depth worldwide, including operational access to more than 1,000 corporate offices, 200 field offices, and

several thousand available US, TCN, and CCN personnel. The IRG Energy II IQC Team offers USAID Bureaus and Missions technical assistance and advisory services to:

- ◆ Establish the enabling environment and institutional capacity for effective governance of the energy sector;
- ◆ Strengthen institutions in the energy and related sectors; and
- ◆ Promote reform to achieve energy security through improved planning, management, and performance across the energy sector.

IRG is committed to rational, balanced energy development as a vital input to economic, social, and environmental improvement. IRG has consistently and successfully implemented large, complex, multi-team, and multi-task assignments in energy, environment, natural resources and agriculture, water resources, and relief and reconstruction for USAID. IRG's management, economic, and technical advice from 20 project-dedicated offices worldwide is enhanced by the diversity, experience, and training and management expertise of our personnel.

IRG ENERGY II IQC TEAM
